Ketaki Apshankar

I am extremely privileged to study with AK's training academy. The faculties are experienced and committed which keeps the students motivated throughout the course. Aparna Ma'am and Krishita Ma'am have always made sure that the classes are interesting and students are never over-burdened with their studies.

The best part about the classes is that they are recorded and are available for a sitting which makes it simpler to refer back and gain a quick understanding. I would definitely recommend students to Join AK's training academy since their teaching approach is exam oriented.

Thank you for your constant support, without this, clearing the papers with great marks wouldn't have been possible. Riya Mandalia (AFM 1st rank Tanzania, World Rank 21st)

I'm so glad to have found AK's Training Academy and wish I had joined early on after taking up ACCA. I've done 7 subjects with AK's so far. I'm so grateful to Aparna Ma'am and Krishita Ma'am as they've always given me advice and guided me when needed. I'm very comfortable and happy with the way they teach. There are regular tests and mocks being conducted for every subject which gives a good idea of how thorough is your preparation so far and where do you need to improve. I never felt confident with theory and so I was very scared of SBL, but Krishita Ma'am made me realise that it's all about practice and determination. Ma'am ensured that we did typing practice for good number of questions throughout the batch and that every one of us took part in interesting discussions in class which helped me understand concepts better and widen my perspective. Daily question practice and reading module answers helped me achieve a score of 79! None of this would've been without the support of Aparna Ma'am and Krishita Ma'am
